

They

They

Don't ever tell them your opinion,
don't show you've got a brain.
Don't criticize their stupid lies,
they'll think you are insane.

Just let them hide behind their violence,
it's probably their way
to solve their problems, they will beat you,
now that's the price to pay.

Don't let them know you hate injustice,
Don't show you stand for truth.
They will insult you, they will hate you,
They'll call you scum of youth.

Don't try to have a conversation,
They'll want you to confess.
They'll punish you for being right,
and steal what you possess.
